

Hello,  
my name is **Ondrej**  
and I **design** web stuff.

### I can...

- Design and create responsive websites with great user experience.
- Create back-end heavy admin system.
- Collaborate in team.
- Learn new things with ease and enthusiasm.
- Work with these: UX, PHP, GIT, SASS, MySQL, Grunt, JavaScript, HTML5, CSS3, jQuery, Bootstrap, OOP...

### I can not...

- Keep feedback and opinions just for myself.
- Create elaborate graphic design.
- Work full-time - still finishing school.
- Sing, but I can play ukulele. Almost three chords.

## Selected freelance projects

### • Nostis [www.nostis.org](http://www.nostis.org)

First MOOC platform in Czech Republic made for NGO [Nugis Finem](http://www.nugisfinem.cz). I have designed the user interactions, developed and tested the website. (Shortly, everything except the graphic part. Yey for unicorns!)

### • Hirex [www.hirex.cz](http://www.hirex.cz)

Tiny website for human resources agency with CMS for new positions. Polished and tested for highest usability and best user experience for visitors.

### • University e-bulletin board [www.nastenka.pf.upol.cz](http://www.nastenka.pf.upol.cz)

Throughout my [bachelor thesis](#), I have gathered a lot of knowledge about law students in Olomouc. And one of their biggest problems was communication with teacher. So we got together with our NGO and University and created a new and properly designed web application.

### • Entoo [www.entoo.cz](http://www.entoo.cz)

My oldest project. A website for law students where they can share notes from lessons, create guides for exams and much more.

## Skills

- Web Development (HTML, CSS, JavaScript, PHP)
- User Experience Design
- Research methods
- People & Team Skills
- Besides various programming languages I speak fluently Czech, English, basic Spanish. And I can say "*cheers*" in many, many others.

## Education

- University of Southern Denmark  
I am studying [IT Product Design](#) at University of Southern Denmark. Right now I am in last semester writing thesis.
- Brno University of Technology  
I have a bachelor degree in information technology from Faculty of Information Technology. My bachelor thesis was focused on [user experience in web design](#) (in Czech only).
- TEI of Crete  
Erasmus studies of information technology in Greece.
